Innovative dispenser earns prestigious global design award for elevating the washroom experience

ROSWELL, Ga., May 23, 2023 /PRNewswire/ -- [Kimberly-Clark Professional](#)™ is a winner of this year's world-renowned iF DESIGN AWARD in the bath category for the Kimberly-Clark Professional™ ICON™ dispenser collection

Hannover-based iF International Design Forum GmbH is the world's oldest independent design organization. The judging panel was comprised of 133 independent design experts from across the globe, and the competition consisted of nearly 11,000 entries submitted from 56 countries.

"We are proud to be recognized with the iF DESIGN AWARD for our Kimberly-Clark Professional ICON dispensers, which represent our most significant upgrade in technological advancements in over a decade," said Mayur Valanju, Vice President of Product Development and Innovation at Kimberly-Clark Professional. "With an increased emphasis on hygiene, handwashing, and washroom experience, we wanted to create a product that elevated the washroom both aesthetically and operationally."

The Kimberly-Clark Professional ICON dispenser collection won the judges over with its unique combination of aesthetic flexibility and functional excellence, elevating the entire user experience. The Kimberly-Clark Professional ICON collection is a family of hand towel, soap and toilet paper dispensers, which includes a first-of-its-kind dispenser that offers interchangeable and customizable faceplate options to elevate commercial washrooms with added sophistication and enhanced functionality.

While most dispensers are designed around the paper, the Kimberly-Clark Professional ICON dispenser is designed around the servicer, facility manager, and end user - offering style, simplicity, cutting-edge technology, and a human-centric experience.
