KIMBERLY-CLARK CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

Note 1. Accounting Policies

Basis of Presentation

The accompanying unaudited Condensed Consolidated Financial Statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. In the opinion of management, all material adjustments which are of a normal and recurring nature necessary for a fair presentation of the results for the periods presented have been reflected.

For further information, refer to the Consolidated Financial Statements and footnotes included in our Annual Report on Form 10-K for the year ended December 31, 2011. The terms "Corporation," "Kimberly-Clark," "K-C," "we," "our" and "us" refer to Kimberly-Clark Corporation and its consolidated subsidiaries.

Highly Inflationary Accounting for Venezuelan Operations

Our Venezuelan subsidiary ("K-C Venezuela") accounts for its operations as highly inflationary, as required by GAAP. Under highly inflationary accounting, K-C Venezuela's functional currency became the U.S. dollar, and its income statement and balance sheet are measured into U.S. dollars using both current and historical rates of exchange. The effect of changes in exchange rates on bolivar-denominated monetary assets and liabilities is reflected in earnings in Other (income) and expense, net. We determined that the Central Bank of Venezuela regulated currency exchange system rate of 5.4 bolivars per U.S. dollar was the appropriate exchange rate to measure K-C Venezuela's bolivar-denominated transactions into U.S. dollars during 2011 and through September 30, 2012.

Note 2. Fair Value Information

Fair Value Measurements

The following fair value information is based on a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The three levels in the hierarchy used to measure fair value are:

Level 1 – Unadjusted quoted prices in active markets accessible at the reporting date for identical assets and liabilities.

Level 2 – Quoted prices for similar assets or liabilities in active markets. Quoted prices for identical or similar assets and liabilities in markets that are not considered active or financial instruments for which all significant inputs are observable, either directly or indirectly.

Level 3 – Prices or valuations that require inputs that are significant to the valuation and are unobservable.

During the nine months ended September 30, 2012 and for full year 2011, there were no significant transfers among level 1, 2, or 3 fair value determinations.

Set forth below are the assets and liabilities that are measured on a recurring basis at fair value and the inputs used to develop those fair value measurements.

	September 30 2012	Fair Value Measurements		
		Level 1	Level 2	Level 3
	(Millions of dollars)			
Assets				
Company-owned life insurance ("COLI")	\$ 49	\$ —	\$ 49	\$ —
Available-for-sale securities	17	17	—	—
Derivatives	67	—	67	—
Total	<u>\$ 133</u>	<u>\$ 17</u>	<u>\$ 116</u>	<u>\$ —</u>
Liabilities				
Derivatives	\$ 68	\$ —	\$ 68	\$ —

	December 31 2011	Fair Value Measurements			
		Level 1	Level 2	Level 3	
		(Millions of dollars)			
Assets					
COLI	\$ 45	\$ —	\$ 45	\$ —	
Available-for-sale securities	15	15	—	—	
Derivatives	61	—	61	—	
Total	<u>\$ 121</u>	<u>\$ 15</u>	<u>\$ 106</u>	<u>\$ —</u>	
Liabilities					
Derivatives	\$ 120	\$ —	\$ 120	\$ —	

The COLI policies are a source of funding primarily for our nonqualified employee benefits and are included in other assets. Available-for-sale securities are included in other assets. See Note 8 for information on the classification of derivatives in the Condensed Consolidated Balance Sheet.

Level 1 Fair Values - The fair values of certain available-for-sale securities are based on quoted market prices in active markets for identical assets. Unrealized losses on these securities were not significant at September 30, 2012 and December 31, 2011 and have been recorded in other comprehensive income until realized. The unrealized losses have not been recognized in earnings because we have both the intent and ability to hold the securities for a period of time sufficient to allow for an anticipated recovery of fair value to the cost of these securities.

Level 2 Fair Values - The fair value of the COLI policies is derived from investments in a mix of money market, fixed income and equity funds managed by unrelated fund managers. The fair values of derivatives used to manage interest rate risk and commodity price risk are based on LIBOR rates and interest rate swap curves and NYMEX price quotations, respectively. The fair value of hedging instruments used to manage foreign currency risk is based on published quotations of spot currency rates and forward points, which are converted into implied forward currency rates. Additional information on our use of derivative instruments is contained in Note 8.

Fair Value Disclosures

The following table includes the fair value of our financial instruments for which disclosure of fair value is required:

	Fair Value Hierarchy Level	Carrying Amount	Estimated Fair Value	Carrying Amount	Estimated Fair Value
		September 30, 2012		December 31, 2011	
		(Millions of dollars)			
Assets					
Cash and cash equivalents ^(a)	1	\$ 1,249	\$ 1,249	\$ 764	\$ 764
Time deposits ^(b)	1	81	81	95	95
Note receivable ^(c)	3	395	386	394	373
Liabilities and redeemable preferred and common securities of subsidiaries					
Short-term debt ^(d)	2	553	553	87	87
Monetization loan ^(c)	3	397	398	397	386
Long-term debt ^(e)	2	5,454	6,596	5,648	6,671
Redeemable preferred securities of subsidiary ^(c)	3	506	553	506	568
Redeemable common securities of subsidiary ^(f)	3	41	41	41	41

^(a) Cash equivalents are comprised of certificates of deposit, time deposits and other interest-bearing investments with original maturity dates of 90 days or less. Cash equivalents are recorded at cost, which approximates fair value.

^(b) Time deposits, included in Other current assets on the Condensed Consolidated Balance Sheet, are comprised of deposits with original maturities of more than 90 days but less than one year. Time deposits are recorded at cost, which approximates fair value.

^(c) The note, monetization loan and redeemable preferred securities of subsidiary are not traded in active markets. Accordingly, their fair values were calculated using a floating rate pricing model that compared the stated spread to the fair value spread to determine the price at which each of the financial instruments should trade. The model used the following inputs to calculate fair values: face value, current LIBOR rate, unobservable fair value credit spread, stated spread, maturity date and interest payment dates. The difference between the carrying amount of the note and its fair value represents an unrealized loss position for which an other-than-temporary impairment has not been recognized in earnings because we have both the intent and ability to hold the note for a period of time sufficient to allow for an anticipated recovery of fair value to the carrying amount of the note.

^(d) Short-term debt is comprised of U.S. commercial paper and other similar short-term debt issued by non-U.S. subsidiaries, all of which are recorded at cost, which approximates fair value.

^(e) Long-term debt excludes the monetization loan and includes the current portion (\$721 million and \$619 million at September 30, 2012 and December 31, 2011, respectively) of these debt instruments. Fair values were estimated based on quoted prices for financial instruments for which all significant inputs were observable, either directly or indirectly.

^(f) The fair value of the redeemable common securities of subsidiary was based on various inputs, including an independent third-party appraisal, adjusted for current market conditions.

Note 3. Pulp and Tissue Restructuring Actions

On January 21, 2011, we initiated a pulp and tissue restructuring plan ("The Restructuring") in order to exit our remaining integrated pulp manufacturing operations and improve the underlying profitability and return on invested capital of our consumer tissue and K-C Professional ("KCP") businesses. The Restructuring involves the streamlining, sale or closure of six of our manufacturing facilities around the world. In conjunction with these actions, we exited certain non-strategic products, primarily non-branded offerings, and transferred some production to lower-cost facilities in order to improve overall profitability and returns.

In addition, on January 24, 2012, we announced our decision to streamline an additional manufacturing facility in North America ("Additional Streamlining") to further enhance the profitability of our consumer tissue business.

Both restructuring actions are anticipated to be substantially completed by the end of 2012. The restructuring actions are expected to result in cumulative pre-tax charges of approximately \$550 to \$600 million (\$385 to \$420 million after tax) over 2011 and 2012.

Cash costs related to the streamlining of operations, sale or closure, relocation of equipment, severance and other expenses are expected to account for approximately 30 to 40 percent of the charges. Noncash charges consist primarily of incremental depreciation.

Through September 30, 2012, cumulative pre-tax charges for the restructuring actions were \$500 million (\$345 million after tax), including cumulative pre-tax cash charges of \$135 million. On a geographic basis, these cumulative pre-tax charges were incurred as follows: North America - \$262 million; Australia - \$160 million and Other - \$78 million. On a business segment basis, these cumulative pre-tax charges were incurred as follows: Consumer Tissue - \$437 million; K-C Professional & other - \$61 million and Other (income) and expense, net - \$2 million.

The following charges were incurred in connection with the restructuring actions:

	Three Months Ended September 30			
	2012			2011
	The Restructuring	Additional Streamlining	Total	The Restructuring
	(Millions of dollars)			
Incremental depreciation	\$ —	\$ 6	\$ 6	\$ 76
Charges for workforce reductions	—	—	—	11
Asset write-offs	—	—	—	5
Other exit costs	22	2	24	3
Cost of products sold	22	8	30	95
Charges for workforce reductions included in Marketing, research and general expenses	1	—	1	—
Provision for income taxes	(12)	(3)	(15)	(29)
Net charges	\$ 11	\$ 5	\$ 16	\$ 66

	Nine Months Ended September 30			
	2012			2011
	The Restructuring	Additional Streamlining	Total	The Restructuring
	(Millions of dollars)			
Incremental depreciation	\$ 7	\$ 18	\$ 25	\$ 192
Charges for workforce reductions	—	3	3	54
Asset write-offs	11	—	11	13
Other exit costs	42	2	44	3
Cost of products sold	60	23	83	262
Charges for workforce reductions included in Marketing, research and general expenses	2	—	2	5
Provision for income taxes	(20)	(9)	(29)	(85)
Net charges	\$ 42	\$ 14	\$ 56	\$ 182

See Note 10 for additional information on the pulp and tissue restructuring charges by segment.

Pre-tax charges for the restructuring actions relate to activities in the following geographic areas:

	Three Months Ended September 30, 2012			
	North America	Australia	Other	Total
	(Millions of dollars)			
Incremental depreciation	\$ 6	\$ —	\$ —	\$ 6
Charges for workforce reductions	1	—	—	1
Other exit costs	3	22	(1)	24
Total charges	\$ 10	\$ 22	\$ (1)	\$ 31

Nine Months Ended September 30, 2012				
	North America	Australia	Other	Total
(Millions of dollars)				
Incremental depreciation	\$ 24	\$ 1	\$ —	\$ 25
Charges for workforce reductions	5	—	—	5
Asset write-offs	11	—	—	11
Other exit costs	18	26	—	44
Total charges	<u>\$ 58</u>	<u>\$ 27</u>	<u>\$ —</u>	<u>\$ 85</u>

Three Months Ended September 30, 2011				
	North America	Australia	Other	Total
(Millions of dollars)				
Incremental depreciation	\$ 53	\$ 19	\$ 4	\$ 76
Charges for workforce reductions	10	—	1	11
Asset write-offs	2	3	—	5
Other exit costs	1	2	—	3
Total charges	<u>\$ 66</u>	<u>\$ 24</u>	<u>\$ 5</u>	<u>\$ 95</u>

Nine Months Ended September 30, 2011				
	North America	Australia	Other	Total
(Millions of dollars)				
Incremental depreciation	\$ 123	\$ 59	\$ 10	\$ 192
Charges for workforce reductions	10	46	3	59
Asset write-offs	8	5	—	13
Other exit costs	1	2	—	3
Total charges	<u>\$ 142</u>	<u>\$ 112</u>	<u>\$ 13</u>	<u>\$ 267</u>

The following summarizes the cash charges recorded and reconciles these charges to accrued expenses for the restructuring actions at September 30:

(Millions of dollars)	2012	2011
Accrued expenses - beginning of year	\$ 37	\$ —
Charges for workforce reductions and other exit costs	49	62
Cash payments	(65)	(34)
Currency and other	2	15
Accrued expenses - September 30	<u>\$ 23</u>	<u>\$ 43</u>

Note 4. Inventories

The following schedule presents a summary of inventories by major class:

(Millions of dollars)	September 30, 2012			December 31, 2011		
	LIFO	Non-LIFO	Total	LIFO	Non-LIFO	Total
At the lower of cost, determined on the FIFO or weighted-average cost methods, or market:						
Raw materials	\$ 153	\$ 334	\$ 487	\$ 163	\$ 334	\$ 497
Work in process	204	140	344	245	126	371
Finished goods	667	803	1,470	708	760	1,468
Supplies and other	—	321	321	—	300	300
	1,024	1,598	2,622	1,116	1,520	2,636
Excess of FIFO or weighted-average cost over LIFO cost	(249)	—	(249)	(280)	—	(280)
Total	\$ 775	\$ 1,598	\$ 2,373	\$ 836	\$ 1,520	\$ 2,356

We use the LIFO method of valuing inventory for financial reporting purposes for most U.S. inventories. Interim LIFO calculations are based on management's estimates of expected year-end inventory levels and costs. An actual valuation of inventory under the LIFO method is made at the end of each year based on the inventory levels and costs at that time.

Note 5. Employee Postretirement Benefits

The table below presents net periodic benefit cost information for defined benefit plans and other postretirement benefit plans:

	Defined Benefit Plans		Other Postretirement Benefit Plans	
	Three Months Ended September 30			
(Millions of dollars)	2012	2011	2012	2011
Service cost	\$ 10	\$ 14	\$ 3	\$ 3
Interest cost	69	77	9	10
Expected return on plan assets	(82)	(87)	—	—
Recognized net actuarial loss	27	23	—	—
Other	3	4	1	—
Net periodic benefit cost	\$ 27	\$ 31	\$ 13	\$ 13
	Defined Benefit Plans		Other Postretirement Benefit Plans	
	Nine Months Ended September 30			
(Millions of dollars)	2012	2011	2012	2011
Service cost	\$ 34	\$ 42	\$ 11	\$ 10
Interest cost	209	231	28	32
Expected return on plan assets	(247)	(260)	—	—
Recognized net actuarial loss	82	70	—	—
Other	20	6	—	2
Net periodic benefit cost	\$ 98	\$ 89	\$ 39	\$ 44

For the nine months ended September 30, 2012 and 2011, we made cash contributions of \$95 million and \$416 million, respectively, to our pension trusts. We currently anticipate contributing approximately \$100 million for the full year 2012 to our pension trusts.

Note 6. Earnings Per Share ("EPS")

There are no adjustments required to be made to net income for purposes of computing basic and diluted EPS. The average number of common shares outstanding is reconciled to those used in the basic and diluted EPS computations as follows:

(Millions of shares)	Three Months Ended September 30		Nine Months Ended September 30	
	2012	2011	2012	2011
Average shares outstanding	393.9	392.1	393.8	395.7
Participating securities	—	0.1	—	0.4
Basic	393.9	392.2	393.8	396.1
Dilutive effect of stock options	1.7	1.6	1.9	1.5
Dilutive effect of restricted share and restricted share unit awards	1.1	1.4	1.4	1.2
Diluted	396.7	395.2	397.1	398.8

There were no significant outstanding options excluded from the computation of diluted EPS during the three and nine month periods ended September 30, 2012. Outstanding options during the three and nine month periods ended September 30, 2011 of 3.2 million and 4.8 million, respectively, were not included in the computation of diluted EPS mainly because the exercise prices of the options were greater than the average market price of the common shares during the periods.

The number of common shares outstanding as of September 30, 2012 and 2011 was 392.3 million and 393.3 million, respectively.

Note 7. Stockholders' Equity

Set forth below are reconciliations for the nine months ended September 30, 2012 and 2011 of the carrying amount of total stockholders' equity from the beginning of the period to the end of the period. In addition, each of the reconciliations displays the amount of net income allocable to redeemable securities of subsidiaries.

(Millions of dollars)	Comprehensive Income	Stockholders' Equity Attributable to		Redeemable Securities of Subsidiaries
		The Corporation	Noncontrolling Interests	
Balance at December 31, 2011		\$ 5,249	\$ 280	\$ 547

Return on redeemable securities of subsidiaries and noncontrolling interests		—	(1)	(21)
Balance at September 30, 2012		\$ 5,535	\$ 304	\$ 547

The change in net unrealized currency translation adjustments for the nine months ended September 30, 2012 was due to a weakening of the U.S. dollar against most foreign currencies.

In the nine months ended September 30, 2012, we repurchased 12.7 million shares at a total cost of \$980 million.

(Millions of dollars)	Comprehensive Income	Stockholders' Equity Attributable to		Redeemable Securities of Subsidiaries

Net unrealized currency gains or losses resulting from the translation of assets and liabilities of foreign subsidiaries, except those in highly inflationary economies, are recorded in Accumulated Other Comprehensive Income ("AOCI"). For these operations, changes in exchange rates generally do not affect cash flows; therefore, unrealized translation adjustments are recorded in AOCI rather than net income. Upon sale or substantially complete liquidation of any of these subsidiaries, the applicable unrealized translation adjustment would be removed from AOCI and reported as part of the gain or loss on the sale or liquidation.

Also included in unrealized translation amounts are the effects of foreign exchange rate changes on intercompany balances of a long-term investment nature and transactions designated as hedges of net foreign investments.

Note 8. Objectives and Strategies for Using Derivatives

As a multinational enterprise, we are exposed to financial risks, such as changes in foreign currency exchange rates, interest rates, commodity prices and the value of investments of our defined benefit pension plans. We employ a number of practices to manage these risks, including operating and financing activities and, where deemed appropriate, the use of derivative instruments. Our policies allow the use of derivatives for risk management purposes and prohibit their use for speculation. Our policies also prohibit the use of any leveraged derivative instrument. Consistent with our policies, foreign currency derivative instruments, interest rate swaps and locks and the majority of commodity hedging contracts are entered into with major financial institutions.

On the date a derivative contract is entered into, we formally designate certain derivatives as cash flow, fair value or net investment hedges and establish how the effectiveness of these hedges will be assessed and measured. This process links the derivatives to the transactions or financial balances they are hedging. Changes in the fair value of derivatives not designated as hedging instruments are recorded in earnings as they occur.

Set forth below is a summary of the fair values of our derivative instruments classified by the risks they are used to manage:

	Assets		Liabilities	
	September 30 2012	December 31 2011	September 30 2012	December 31 2011
	(Millions of dollars)			
Foreign currency exchange risk	\$ 59	\$ 45	\$ 18	\$ 33
Interest rate risk	6	16	44	75
Commodity price risk	2	—	6	12
Total	<u>\$ 67</u>	<u>\$ 61</u>	<u>\$ 68</u>	<u>\$ 120</u>

The derivative assets are presented in the Condensed Consolidated Balance Sheet in Other current assets and Other assets, as appropriate. The derivative liabilities are presented in the Condensed Consolidated Balance Sheet in Accrued expenses and Other liabilities, as appropriate.

Foreign Currency Exchange Risk Management

We have a centralized U.S. dollar functional currency international treasury operation ("In-House Bank") that manages foreign currency exchange risks by netting, on a daily basis, our exposures to recorded non-U.S. dollar assets and liabilities and entering into derivative instruments with third parties whenever our net exposure in any single currency exceeds predetermined limits. These derivative instruments are not designated as hedging instruments. Changes in the fair value of these instruments are recorded in earnings when they occur. The In-House Bank also records the gain or loss on the remeasurement of its non-U.S. dollar-denominated monetary assets and liabilities in earnings. Consequently, the net effect on earnings from the use of these non-designated derivatives is substantially neutralized by transactional gains and losses recorded on the underlying assets and liabilities. The In-House Bank's daily notional derivative positions with third parties averaged \$1.4 billion in the first nine months of 2012 and its average net exposure for the same period was \$1.3 billion. The In-House Bank used ten counterparties for its foreign exchange derivative contracts.

We enter into derivative instruments to hedge a portion of the net foreign currency exposures of our non-U.S. operations, principally for their forecasted purchases of pulp, which are priced in U.S. dollars, and imports of intercompany finished goods and work-in-process priced predominately in U.S. dollars and euros. The derivative instruments used to manage these exposures are designated and qualify as cash flow hedges. As of September 30, 2012, outstanding derivative contracts of \$920 million notional value were designated as cash flow hedges for the forecasted purchases of pulp and intercompany finished goods and work-in-process.

The foreign currency exposure on non-functional currency denominated monetary assets and liabilities managed outside the In-House Bank, primarily intercompany loans and accounts payable, is hedged with derivative instruments with third parties. At September 30, 2012, the notional amount of these predominantly undesignated derivative instruments was \$580 million.

Foreign Currency Translation Risk Management

Translation adjustments result from translating foreign entities' financial statements to U.S. dollars from their functional currencies. The risk to any particular entity's net assets is reduced to the extent that the entity is financed with local currency borrowing. Translation exposure, which results from changes in translation rates between functional currencies and the U.S. dollar, generally is not hedged. However, consistent with other years, a portion of our net investment in our Mexican affiliate has been hedged. At September 30, 2012, we had in place net investment hedges of \$67 million for a portion of our investment in our Mexican affiliate. Changes in the fair value of net investment hedges are recognized in other comprehensive income to offset the change in value of the net investment being hedged. There was no significant ineffectiveness related to net investment hedges as of September 30, 2012 and 2011.

Interest Rate Risk Management

Interest rate risk is managed using a portfolio of variable- and fixed-rate debt composed of short- and long-term instruments and interest rate swaps. From time to time, interest rate swap contracts, which are derivative instruments, are entered into to facilitate the maintenance of the desired ratio of variable- and fixed-rate debt. These derivative instruments are designated and qualify as fair value hedges or, to a lesser extent, cash flow hedges.

From time to time, we hedge the anticipated issuance of fixed-rate debt, using forward-starting swaps or "treasury locks" (e.g., a 10-year "treasury lock" hedging the anticipated underlying U.S. Treasury interest rate related to issuance of 10-year debt at a future date). These contracts are designated as cash flow hedges.

At September 30, 2012, the aggregate notional values of outstanding interest rate contracts designated as fair value hedges and cash flow hedges were \$300 million and \$280 million, respectively.

Commodity Price Risk Management

We use derivative instruments to hedge a portion of our exposure to market risk arising from changes in the price of natural gas. Hedging of this risk is accomplished by entering into forward swap contracts, which are designated as cash flow hedges of specific quantities of natural gas expected to be purchased in future months.

As of September 30, 2012, outstanding commodity forward contracts were in place to hedge forecasted purchases of about 25 percent of our estimated natural gas requirements for the next twelve months and a lesser percentage for future periods.

Effect of Derivative Instruments on Results of Operations and Other Comprehensive Income

Fair Value Hedges

Derivative instruments that are designated and qualify as fair value hedges are predominantly used to manage interest rate risk. The fair values of these instruments are recorded as an asset or liability, as appropriate, with the offset recorded in current earnings. The offset to the change in fair values of the related hedged items also is recorded in current earnings. Any realized gain or loss on the derivatives that hedge interest rate risk is amortized to interest expense over the life of the related debt.

Fair value hedges resulted in no significant ineffectiveness in the nine months ended September 30, 2012 and 2011. For the nine months ended September 30, 2012 and 2011, no gain or loss was recognized in earnings as a result of a hedged firm commitment no longer qualifying as a fair value hedge.

Cash Flow Hedges

For derivative instruments that are designated and qualify as cash flow hedges, the effective portion of the gain or loss on the derivative instrument is initially recorded in AOCI, net of related income taxes, and recognized in earnings in the same period that the hedged exposure affects earnings.

Cash flow hedges resulted in no significant ineffectiveness in the nine months ended September 30, 2012 and 2011. For the nine months ended September 30, 2012 and 2011, no gains or losses were reclassified into earnings as a result of the discontinuance of cash flow hedges due to the original forecasted transaction no longer being probable of occurring. At September 30, 2012, \$8 million of after-tax gains are expected to be reclassified from AOCI primarily to cost of products sold during the next twelve months, consistent with the timing of the underlying hedged transactions. The maximum maturity of cash flow hedges in place at September 30, 2012 is October 2014.

Quantitative Information about Our Use of Derivative Instruments

The following tables display the location and amount of pre-tax gains and losses reported in the Consolidated Income Statement and Consolidated Statement of Other Comprehensive Income.

For the three months ended September 30 (Millions of dollars):

	Income Statement Classifications	(Gain) or Loss Recognized in Income	
		2012	2011
Undesignated foreign exchange hedging instruments	Other (income) and expense, net ^(a)	\$ (30)	\$ 92

Fair Value Hedges

Interest rate swap contracts	Interest expense	\$ 3	\$ 8
Hedged debt instruments	Interest expense	\$ (3)	\$ (8)

Commodity contracts	(1)	5	Cost of products sold	4	1
Total	<u>\$ 10</u>	<u>\$ 24</u>		<u>\$ (4)</u>	<u>\$ 8</u>
<u>Net Investment Hedges</u>					
Foreign exchange contracts	\$ 1	\$ (7)		\$ —	\$ —

For the nine months ended September 30 (Millions of dollars):

	Income Statement Classifications	(Gain) or Loss Recognized in Income	
		2012	2011
Undesignated foreign exchange hedging instruments	Other (income) and expense, net ^(a)	\$ (31)	\$ (7)

Fair Value Hedges			
Interest rate swap contracts	Interest expense	\$ 8	\$ 3
Hedged debt instruments	Interest expense	\$ (8)	\$ (3)

	Amount of (Gain) or Loss Recognized In AOCI		Income Statement Classification of (Gain) or Loss Reclassified from AOCI	(Gain) or Loss Reclassified from AOCI into Income	
	2012	2011		2012	2011
<u>Cash Flow Hedges</u>					
Interest rate contracts	\$ 16	\$ 69	Interest expense	\$ 1	\$ (2)
Foreign exchange contracts	(7)	11	Cost of products sold	(12)	36
Foreign exchange contracts	(3)	(3)	Other (income) and expense, net	(3)	(3)
Commodity contracts	6	6	Cost of products sold	14	6
Total	\$ 12	\$ 83		\$ —	\$ 37
<u>Net Investment Hedges</u>					
Foreign exchange contracts	\$ (2)	\$ (4)		\$ —	\$ —

^(a) (Gains) and losses on these instruments primarily relate to derivatives entered into with third parties to manage foreign currency exchange exposure on the remeasurement of non-functional currency denominated monetary assets and liabilities. Consequently, the effect on earnings from the use of these undesignated derivatives is substantially neutralized by the recorded transactional gains and losses on the underlying assets and liabilities.

Note 9. Subsequent Events

European Strategic Changes

On October 23, 2012, we approved strategic changes related to our Western and Central European consumer and professional businesses to focus our resources and investments on stronger market positions and growth opportunities. We will be exiting the diaper category in that region, with the exception of the Italian market, and divesting or exiting some lower-margin businesses, mostly in consumer tissue, in certain markets. The changes will primarily affect our consumer businesses, with a modest impact on K-C Professional.

Restructuring actions related to the strategic changes will involve the sale or closure of five of our European manufacturing facilities and a streamlining of our administrative organization. In total, these actions will result in reducing our European workforce by approximately 1,300 to 1,500 positions.

The restructuring actions will commence in the fourth quarter of 2012 and are expected to be completed by December 2014. The restructuring is expected to result in cumulative charges of approximately \$250 to \$350 million after tax (\$300 to \$400 million pre-tax) over that period. We anticipate that the pre-tax charges will fall into the following categories and approximate dollar ranges: workforce reduction costs (\$140 to \$175 million); asset impairment charges (\$120 to \$150 million); incremental depreciation (\$30 to \$40 million) and other associated costs (\$10 to \$35 million). Cash costs related to severance and other expenses are expected to account for approximately 50 to 60 percent of the charges. Noncash charges will consist primarily of asset impairment charges and incremental depreciation.

U.S. Pension Plan Lump Sum Offering

In order to reduce the size and potential future volatility of our U.S. defined benefit pension plan obligation, we have offered approximately 10,000 former employees who have deferred vested pension plan benefits a one-time option to receive a lump sum distribution of their benefits by the end of 2012. The vested benefit obligation associated with these former employees is approximately \$570 million, equivalent to about 15 percent of our benefit obligation for the U.S. qualified plan.

Eligible participants have until November 21, 2012 to make their election. If the percentage of eligible participants that choose the lump sum option exceeds approximately 45 percent, we will recognize a one-time, non-cash settlement charge in the fourth quarter. The lump sum payments will be funded from existing pension plan assets and will occur by the end of 2012.

Note 10. Description of Business Segments

We are organized into operating segments based on product groupings. These operating segments have been aggregated into four reportable global business segments: Personal Care, Consumer Tissue, K-C Professional & other, and Health Care. The reportable segments were determined in accordance with how our executive managers develop and execute global strategies to drive growth and profitability. These strategies include global plans for branding and product positioning, technology, research and development programs, cost reductions including supply chain management, and capacity and capital investments for each of these businesses. Segment management is evaluated on several factors, including operating profit. Segment operating profit excludes other (income) and expense, net and income and expense not associated with the business segments, including the charges related to the pulp and tissue restructuring actions described in Note 3.

The principal sources of revenue in each global business segment are described below:

- *Personal Care* brands offer parents a trusted partner in caring for their families and deliver confidence, protection and discretion to adults, through a wide variety of innovative solutions and products such as disposable diapers, training and youth pants, swimpants, baby wipes, feminine and incontinence care products, and other related products. Products in this segment are sold under the Huggies, Pull-Ups, Little Swimmers, GoodNites, Kotex, Lightdays, Depend, Poise and other brand names.
- *Consumer Tissue* offers a wide variety of innovative solutions and trusted brands that touch and improve people's lives every day. Products in this segment include facial and bathroom tissue, paper towels, napkins and related products, and are sold under the Kleenex, Scott, Cottonelle, Viva, Andrex, Scottex, Hakle, Page and other brand names.
- *K-C Professional & Other* helps transform workplaces for employees and patrons, making them healthier, safer, and more productive, through a range of solutions and supporting products such as apparel, wipers, soaps, sanitizers, tissues, and towels. Key brands in this segment include: Kleenex, Scott, WypAll, Kimtech, and Jackson Safety.
- *Health Care* provides the essentials that help restore patients to better health and improve the quality of patients' lives. Health Care offers a portfolio of innovative medical devices focused on pain management, respiratory and digestive health, and

surgical and infection prevention products for the operating room. This business is a global leader in education to prevent healthcare-associated infections. Products are sold primarily under the Kimberly-Clark and ON-Q brand names.

The following schedules present information concerning consolidated operations by business segment:

	Three Months Ended September 30		Nine Months Ended September 30	
	2012	2011	2012	2011
(Millions of dollars)				
NET SALES:				
Personal Care	\$ 2,414	\$ 2,390	\$ 7,196	\$ 6,918
Consumer Tissue	1,605	1,711	4,852	5,054
K-C Professional & Other	822	863	2,458	2,477
Health Care	396	407	1,212	1,186
Corporate & Other	9	11	38	35
Consolidated	<u>\$ 5,246</u>	<u>\$ 5,382</u>	<u>\$ 15,756</u>	<u>\$ 15,670</u>

OPERATING PROFIT (reconciled to Income Before Income Taxes and Equity Interests):				
Personal Care	\$ 436	\$ 396	\$ 1,241	\$ 1,185
Consumer Tissue	216	206	652	529
K-C Professional & Other	144	127	407	360
Health Care	59	56	168	159
Corporate & Other ^(a)	(77)	(140)	(246)	(429)
Other (income) and expense, net	(5)	(17)	(15)	(27)
Total Operating Profit	<u>783</u>	<u>662</u>	<u>2,237</u>	<u>1,831</u>
Interest income	4	5	13	13
Interest expense	(70)	(70)	(212)	(205)
Income Before Income Taxes and Equity Interests	<u>\$ 717</u>	<u>\$ 597</u>	<u>\$ 2,038</u>	<u>\$ 1,639</u>

^(a) Corporate & Other includes pulp and tissue restructuring charges as follows:

	Three Months Ended September 30		Nine Months Ended September 30	
	2012	2011	2012	2011
(Millions of dollars)				
Consumer Tissue	\$ 31	\$ 81	\$ 80	\$ 233
K-C Professional & Other	—	14	5	34
Total	<u>\$ 31</u>	<u>\$ 95</u>	<u>\$ 85</u>	<u>\$ 267</u>

See additional information in Note 3 for the pulp and tissue restructuring actions. The nine months ended September 30, 2011 also includes a non-deductible business tax charge of \$32 million related to a law change in Colombia.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Introduction

This management's discussion and analysis of financial condition and results of operations is intended to provide investors with an understanding of our recent performance, financial condition and prospects. The following will be discussed and analyzed:

- Overview of Third Quarter 2012 Results
- Results of Operations and Related Information
- Liquidity and Capital Resources
- Legal Matters
- Business Outlook

Overview of Third Quarter 2012 Results

- Net sales decreased 2.5 percent primarily due to unfavorable currency effects partially offset by increases in net selling prices and sales volumes.
- Operating profit and net income attributable to Kimberly-Clark Corporation increased 18.3 percent and 19.7 percent, respectively.
- Net income includes \$16 million in after tax charges (\$31 million pre-tax) in 2012 and \$66 million in after tax charges (\$95 million pre-tax) in 2011 for the pulp and tissue restructuring actions.
- Cash provided by operations was \$844 million compared to \$750 million in the prior year. The improvement was driven by higher cash earnings and a smaller increase in working capital than in the year-ago quarter, partially offset by higher defined benefit pension plan contributions.

Results of Operations and Related Information

This section presents a discussion and analysis of our third quarter of 2012 net sales, operating profit and other information relevant to an understanding of the results of operations.

Third Quarter of 2012 Compared With Third Quarter of 2011

Analysis of Net Sales

By Business Segment

Net Sales	2012	2011
	(Millions of dollars)	
Personal Care	\$ 2,414	\$ 2,390
Consumer Tissue	1,605	1,711
K-C Professional & Other	822	863
Health Care	396	407
Corporate & Other	9	11
Consolidated	\$ 5,246	\$ 5,382

By Geography

Net Sales	2012	2011
	(Millions of dollars)	
North America	\$ 2,688	\$ 2,740
Outside North America	2,763	2,838
Intergeographic sales	(205)	(196)
Consolidated	\$ 5,246	\$ 5,382

Commentary:

	Percent Change in Net Sales Versus Prior Year				
	Changes Due To				
	Total Change	Volume Growth	Net Price	Mix/ Other	Currency
Consolidated	(2.5)	1	1	—	(5)
Personal Care	1.0	4	2	—	(5)
Consumer Tissue	(6.2)	(1)	—	—	(5)
K-C Professional & Other	(4.8)	—	—	(1)	(4)
Health Care	(2.7)	(1)	—	—	(2)

- Personal care net sales in North America were even with year-ago levels. Net selling prices rose 2 percent, driven by improved revenue realization for Huggies diapers, while overall sales volumes decreased 2 percent. Infant care volumes were down high-single digits, primarily reflecting category declines and modest consumer trade-down. Feminine care volumes were down mid-single digits compared to strong a year-ago performance. Child care volumes increased at a low double-digit rate, as the comparison to the prior year benefited from soft training pant volumes last year, along with higher shipments of Good Nites youth pants and Huggies Little Swimmers swim pants in 2012. Lastly, adult care volumes increased low-single digits, including benefits from the introduction of the Poise feminine wellness line-up.

In our international operations in Asia, Latin America, the Middle East, Eastern Europe and Africa ("K-C International"), personal care net sales increased 2 percent despite a 9 percent decrease from unfavorable changes in currency rates. Sales volumes were up 9 percent, with high-single digit to low-double digit growth in each major region. Volume performance was strong in a number of markets, including Brazil, China, Russia, South Africa, South Korea and Venezuela. Overall net selling prices improved 2 percent compared to the year-ago period, driven by increases in Latin America.

In Europe, personal care net sales decreased 2 percent, including an unfavorable currency impact of 11 percent. Sales volumes rose 9 percent, mostly due to growth in non-branded offerings and Huggies baby wipes.

- Consumer tissue net sales in North America were down 5 percent compared to the prior year, including a 5 percent decrease from lost sales in conjunction with pulp and tissue restructuring actions. Organic sales volumes (i.e., sales volume impacts other than lost sales from restructuring actions) increased 3 percent, as gains in bathroom tissue were partially offset by lower volumes in paper towels. Overall changes in product mix decreased sales 2 percent and net selling prices were down 1 percent.

Consumer tissue net sales decreased 4 percent in K-C International. Currency rates were unfavorable by 8 percent and lost sales in conjunction with pulp and tissue restructuring actions reduced sales volumes by 1 percent. Net selling prices increased 3 percent and both organic sales volumes and product mix increased net sales by 1 percent.

In Europe, consumer tissue net sales decreased 13 percent, including an unfavorable currency impact of 10 percent. Net selling prices decreased 2 percent and changes in product mix reduced net sales 1 percent, as economic conditions remain difficult.

- Net sales of K-C Professional ("KCP") & other products in North America decreased 2 percent as net selling prices and sales volumes were each down 1 percent. Although washroom product volumes increased, these gains were more than offset by lower volumes in other areas, including safety products and wipers.

KCP net sales decreased 1 percent in K-C International, including an 8 percent decrease from unfavorable changes in currency rates. Sales volumes increased 4 percent, driven by double-digit growth in Latin America. In addition, overall net selling prices rose 2 percent and product mix improved 1 percent.

In Europe, KCP net sales decreased 17 percent. Currency rates were unfavorable by 10 percent and lost sales in conjunction with pulp and tissue restructuring actions reduced sales volumes by 4 percent. Organic sales volumes decreased 2 percent, primarily due to challenging market conditions in Southern Europe. Overall net selling prices decreased 1 percent.

- Net sales of health care products decreased 3 percent as unfavorable currency effects reduced net sales by 2 percent and sales volumes decreased 1 percent. Surgical and infection prevention (medical supply) volumes were down slightly compared to double-digit growth in the year-ago period. Medical device volumes decreased 1 percent.

Analysis of Operating Profit

By Business Segment

Operating Profit	2012	2011
	(Millions of dollars)	
Personal Care	\$ 436	\$ 396
Consumer Tissue	216	206
K-C Professional & Other	144	127
Health Care	59	56
Corporate & Other ^(a)	(77)	(140)
Other (income) and expense, net	(5)	(17)
Consolidated	\$ 783	\$ 662

By Geography

Operating Profit	2012		2011	
	(Millions of dollars)			
North America	\$	522	\$	492
Outside North America		333		293
Corporate & Other ^(a)		(77)		(140)
Other (income) and expense, net		(5)		(17)
Consolidated	\$	783	\$	662

^(a) For the three months ended September 30, 2012 and 2011, Corporate & Other includes pulp and tissue restructuring charges of \$31 million and \$95 million, respectively.

Commentary:

	Percentage Change in Operating Profit Versus Prior Year						
	Total Change	Change Due To					
		Volume	Net Price	Input Costs ^(a)	Cost Savings	Currency Translation	Other ^(b)
Consolidated	18.3	7	6	8	13	(4)	(12)
Personal Care	10.1	7	10	1	16	(3)	(21)
Consumer Tissue	4.9	3	2	10	6	(3)	(13)
K-C Professional & Other	13.4	8	(1)	8	12	(6)	(8)
Health Care	5.4	—	(3)	28	(8)	1	(13)

^(a) Includes inflation/deflation in raw materials, energy and distribution costs.

^(b) Consolidated includes the impact of the charges in 2012 and 2011 related to the pulp and tissue restructuring actions.

Consolidated operating profit increased compared to the prior year due to benefits from organic sales growth and \$85 million in cost savings. In addition, input costs were \$55 million lower overall versus 2011, with \$45 million of lower fiber costs and a \$25 million decrease for other raw materials, partially offset by \$15 million of higher distribution costs. On the other hand, overall marketing, research and general expenses increased versus the year-ago period. The higher spending included a \$25 million increase in strategic marketing, primarily to support product innovations and targeted growth initiatives. Administrative and research spending also increased, in part, to build further capabilities and support future growth, particularly in K-C International. In addition, foreign currency translation effects reduced operating profit by \$25 million as a result of the weakening of several currencies relative to the U.S. dollar. The current year results include \$31 million of pre-tax charges for the pulp and tissue restructuring actions, while the prior year period includes \$95 million of pre-tax charges for the restructuring actions.

- Personal care segment operating profit in North America increased due to higher net selling prices, lower input costs, and cost savings, partially offset by higher marketing and general expenses and lower sales volumes. In K-C International, operating profit increased as higher sales volumes and net selling prices and cost savings were mostly offset by higher marketing, research and general expenses, unfavorable currency rates and inflation in input costs. Operating profit in Europe increased due to cost savings and the positive impact of higher production volumes.
- Consumer tissue segment operating profit in North America decreased as lower net selling prices and higher marketing, research and general expenses were partially offset by cost savings and lower input costs. Operating profit in K-C International increased as higher net selling prices, increased volume, favorable product mix and cost savings were partially offset by higher marketing and research expenses and unfavorable currency rates. In Europe, operating profit decreased as lower net selling prices, unfavorable mix and higher marketing and general expenses were partially offset by cost savings and input cost deflation.
- Operating profit for the KCP & other segment increased as organic volume growth, cost savings, and lower input costs were partially offset by higher marketing, research and general expenses and unfavorable currency rates.
- Health care segment operating profit increased as a result of lower input costs, partially offset by higher research and general expenses and lower net selling prices.

Additional Income Statement Commentary

- Other (income) and expense, net decreased in the year-over-year comparison by \$12 million. The change was driven by a gain on the sale of a small business in Latin America in 2011.
- Our effective tax rate for the third quarter of 2012 increased to 31.1 percent from 29.1 percent in the prior year in part due to lower investment tax credits in the current period.
- Our share of net income of equity companies in the third quarter of 2012 was \$8 million higher than the prior year. At Kimberly-Clark de Mexico, S.A.B. de C.V., results benefited from higher net selling prices and volumes as well as increased operating profit margins.

First Nine Months of 2012 Compared With First Nine Months of 2011

Analysis of Net Sales

By Business Segment

Net Sales	2012	2011
	(Millions of dollars)	
Personal Care	\$ 7,196	\$ 6,918

Consolidated	\$ 2,237	\$ 1,831

^(a) For the nine months ended September 30, 2012 and 2011, Corporate & Other includes pulp and tissue restructuring charges of \$85 million and \$267 million, respectively. The nine months ended September 30, 2011 also included a non-deductible business tax charge of \$32 million related to a law change in Colombia.

Commentary:

Percentage Change in Operating Profit Versus Prior Year							
Total Change	Change Due To						Other ^(b)
	Volume	Net Price	Input Costs ^(a)	Cost Savings	Currency Translation		
Consolidated	22.2	4	18	4	12	(3)	(13)
Personal Care	4.7	7	15	(3)	12	(2)	(24)
Consumer Tissue	23.3	(7)	23	14	11	(2)	(16)
K-C Professional & Other	13.1	5	5	7	9	(4)	(9)
Health Care	5.7	7	1	8	(8)	1	(3)

^(a) Includes inflation/deflation in raw materials, energy and distribution costs.

^(b) Consolidated includes the impact of the charges in 2012 and 2011 related to pulp and tissue restructuring actions and a 2011 non-deductible business tax charge related to a law change in Colombia.

Consolidated operating profit increased compared to the prior year. The benefits of higher net selling prices, cost savings, increased sales volumes and deflation in input costs were partially offset by increased marketing, research and general expenses (including \$105 million in higher strategic marketing spending), and unfavorable currency translation effects. In addition, current year results include \$85 million of pre-tax charges for the pulp and tissue restructuring actions, while the prior year includes \$267 million of pre-tax charges related to the pulp and tissue restructuring actions and a \$32 million business tax charge related to a law change in Colombia.

- Personal care segment operating profit increased due to higher net selling prices, cost savings, and increased sales volumes, partially offset by increased marketing, research and general expenses, input cost inflation and unfavorable currency effects.

- Consumer tissue segment operating profit increased due to higher net selling prices, input cost deflation and cost savings, partially offset by lower sales volumes, increased marketing, research and general expenses, the negative effects of lower production volumes and unfavorable currency effects.
- Operating profit for KCP products increased due to higher net selling prices, improved mix, cost savings, input cost deflation and higher sales volumes, partially offset by increased marketing, research and general expenses and unfavorable currency effects.
- Health care segment operating profit increased due to higher sales volumes and input cost deflation.

Pulp and Tissue Restructuring Actions

On January 21, 2011, we initiated a pulp and tissue restructuring plan in order to exit our remaining integrated pulp manufacturing operations and improve the underlying profitability and return on invested capital of our consumer tissue and KCP businesses. The restructuring involves the streamlining, sale or closure of six of our manufacturing facilities around the world. In conjunction with these actions, we exited certain non-strategic products, primarily non-branded offerings, and transferred some production to lower-cost facilities in order to improve overall profitability and returns.

In addition, on January 24, 2012, we announced our decision to streamline an additional manufacturing facility in North America to further enhance the profitability of our consumer tissue business.

Both restructuring actions are anticipated to be substantially completed by the end of 2012. The restructuring actions are expected to result in cumulative pre-tax charges of approximately \$550 to \$600 million (\$385 to \$420 million after tax) over 2011 and 2012. Cash costs related to the streamlining of operations, sale or closure, relocation of equipment, severance and other expenses are expected to account for approximately 30 to 40 percent of the charges. Noncash charges consist primarily of incremental depreciation.

As a result of the restructuring activities, versus a 2010 baseline, we expect that by 2013 annual net sales will decrease by \$250 to \$300 million, and operating profit will increase by at least \$75 million in 2013 and at least \$100 million in 2014. Through the third quarter of 2012, we have recognized cumulative operating profit benefits of \$50 million from the restructuring actions. Most of the restructuring will impact the consumer tissue business segment.

See additional information on the pulp and tissue restructuring actions in Note 3 to the Condensed Consolidated Financial Statements.

European Strategic Changes

On October 23, 2012, we approved strategic changes related to our Western and Central European consumer and professional businesses to focus our resources and investments on stronger market positions and growth opportunities. We will be exiting the diaper category in that region, with the exception of the Italian market, and divesting or exiting some lower-margin businesses, mostly in consumer tissue, in certain markets. The changes will primarily affect our consumer businesses, with a modest impact on K-C Professional. The businesses that will be exited or divested generate annual net sales of approximately \$500 million and negligible operating profit.

Restructuring actions related to the strategic changes will involve the sale or closure of five of our European manufacturing facilities and a streamlining of our administrative organization. In total, these actions will result in reducing our European workforce by approximately 1,300 to 1,500 positions.

The restructuring actions will commence in the fourth quarter of 2012 and are expected to be completed by December 31, 2014. The restructuring is expected to result in cumulative charges of approximately \$250 to \$350 million after tax (\$300 to \$400 million pre-tax) over that period. We anticipate that the pre-tax charges will fall into the following categories and approximate dollar ranges: workforce reduction costs (\$140 to \$175 million); asset impairment charges (\$120 to \$150 million); incremental depreciation (\$30 to \$40 million) and other associated costs (\$10 to \$35 million). Cash costs related to severance and other expenses are expected to account for approximately 50 to 60 percent of the charges. Noncash charges will consist primarily of asset impairment charges and incremental depreciation.

U.S. Pension Plan Lump Sum Offering

In order to reduce the size and potential future volatility of our U.S. defined benefit pension plan obligation, we have offered approximately 10,000 former employees who have deferred vested pension plan benefits a one-time option to receive a lump sum distribution of their benefits by the end of 2012. The vested benefit obligation associated with these former employees is approximately \$570 million, equivalent to about 15 percent of our benefit obligation for the U.S. qualified plan.

Eligible participants have until November 21, 2012 to make their election. If the percentage of eligible participants that choose the lump sum option exceeds approximately 45 percent, we will recognize a one-time, non-cash settlement charge in the fourth quarter. The lump sum payments will be funded from existing pension plan assets and will occur by the end of 2012.

Liquidity and Capital Resources

- Cash provided by operations for the first nine months of 2012 was \$2.2 billion compared to \$1.8 billion in the prior year. The increase was driven by lower defined benefit plan contributions and higher cash earnings, offset partially by increases in working capital. Contributions to our defined benefit pension plans totaled \$95 million for the nine months ended September 30, 2012 versus \$416 million for the nine months ended September 30, 2011. We currently anticipate contributing approximately \$100 million to our pension trusts in 2012.
- During the first nine months of 2012, we repurchased 12.7 million shares of our common stock at a cost of \$980 million. In 2012, we plan to repurchase \$1.3 billion of shares through open market purchases, subject to market conditions.
- Capital spending for the first nine months was \$763 million compared with \$656 million last year. We anticipate that full year 2012 capital spending will be between \$1.0 and \$1.1 billion.
- At September 30, 2012, total debt and redeemable securities was \$7.0 billion compared with \$6.7 billion at December 31, 2011.
- Our short-term debt as of September 30, 2012 was \$553 million (included in Debt payable within one year on the Condensed Consolidated Balance Sheet) and consisted of U.S. commercial paper with original maturities up to 90 days and other similar short-term debt issued by non-U.S. subsidiaries. The average month-end balance of short-term debt for the third quarter of 2012 was \$579 million. These short-term borrowings provide supplemental funding for supporting our operations. The level of short-term debt during a quarter generally fluctuates depending upon the amount of operating cash flows, timing of repatriation and payments for items such as dividends and income taxes.
- We maintain a \$1.5 billion revolving credit facility, scheduled to expire in October 2016, as well as the option to increase this facility by an additional \$500 million. This facility, currently unused, supports our commercial paper program and would provide liquidity in the event our access to the commercial paper market is unavailable for any reason. We had an additional \$500 million facility that expired pursuant to its terms in October 2012.
- The Venezuelan government has currency exchange regulations that limit U.S. dollar availability to pay for the historical levels of U.S. dollar-denominated imports to support operations of our Venezuelan subsidiary ("K-C Venezuela"). At September 30, 2012, K-C Venezuela had a bolivar-denominated net monetary asset position of \$185 million and our net investment in K-C Venezuela was \$322 million, both valued at 5.4 bolivars per U.S. dollar. Net sales of K-C Venezuela represented 1 percent of Consolidated Net Sales for full-year 2011. The Venezuelan government enacted price controls effective April 1, 2012 that reduced the net selling prices of certain K-C Venezuela's products. The enacted price controls are not expected to have a material impact on our consolidated financial results.
- We believe that our ability to generate cash from operations and our capacity to issue short-term and long-term debt are adequate to fund working capital, capital spending, payment of dividends, pension plan contributions and other needs for the foreseeable future. Further, we do not expect restrictions or taxes on repatriation of cash held outside of the United States to have a material effect on our overall liquidity, financial condition or results of operations for the foreseeable future.

Legal Matters

We are subject to various legal proceedings, claims and governmental inspections, audits or investigations pertaining to issues such as contract disputes, product liability, patents and trademarks, advertising, governmental regulations, employment and other matters. Although the results of litigation and claims cannot be predicted with certainty, we believe that the ultimate disposition of these matters, to the extent not previously provided for, will not have a material adverse effect, individually or in the aggregate, on our business, financial condition, results of operations or liquidity.

We are subject to federal, state and local environmental protection laws and regulations with respect to our business operations and are operating in compliance with, or taking action aimed at ensuring compliance with, these laws and regulations. We have been named a potentially responsible party under the provisions of the U.S. federal Comprehensive Environmental Response, Compensation, and Liability Act, or analogous state statutes, at a number of waste disposal sites. None of our compliance obligations with environmental protection laws and regulations, individually or in the aggregate, is expected to have a material adverse effect on our business, financial condition, results of operations or liquidity.

Business Outlook

We plan to continue to pursue targeted growth initiatives and increase strategic marketing faster than net sales. We expect commodity costs overall in 2012 will be lower than the prior year, but believe results will likely be negatively impacted by weaker foreign currency exchange rates relative to the U.S. dollar. We will continue to manage our company with financial discipline and we expect to continue to deliver cost savings in order to improve profitability.

Fourth quarter 2012 operating results will be impacted by restructuring charges related to the strategic changes in our Western and Central European consumer and professional businesses. In addition, fourth quarter results could be impacted by a non-cash settlement charge related to the lump sum offering for our U.S. pension plan participants depending on the level of participants choosing the lump sum option. Additional information on both these items is included elsewhere in MD&A and Note 9 to the Condensed Consolidated Financial Statements.

Information Concerning Forward-Looking Statements

Certain matters contained in this report concerning the business outlook, including the anticipated costs, scope, timing and financial and other effects of the pulp and tissue restructuring actions and the Western and Central Europe strategic changes, cash flow and uses of cash, growth initiatives, marketing and other spending, raw material, energy and other input costs, anticipated currency rates and exchange risks, cost savings and reductions, contingencies and anticipated transactions of Kimberly-Clark, including share repurchases and pension contributions, constitute "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995 and are based upon management's expectations and beliefs concerning future events impacting Kimberly-Clark. There can be no assurance that these future events will occur as anticipated or that our results will be as estimated. Forward-looking statements speak only as of the date they were made, and we undertake no obligation to publicly update them.

The assumptions used as a basis for the forward-looking statements include many estimates that, among other things, depend on the achievement of future cost savings and projected volume increases. In addition, many factors outside our control, including fluctuations in foreign currency exchange rates, the prices and availability of raw materials, potential competitive pressures on selling prices for our products, energy costs and retail trade customer actions, as well as general economic and political conditions globally and in the markets in which we do business, could affect the realization of these estimates.

For a description of certain factors that could cause our future results to differ from those expressed in these forward-looking statements, see Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2011 entitled "Risk Factors."

Item 4. Controls and Procedures

As of September 30, 2012, an evaluation was performed under the supervision and with the participation of management, including the Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures. Based on that evaluation, management, including the Chief Executive Officer and Chief Financial Officer, concluded that our disclosure controls and procedures were effective as of September 30, 2012. There were no changes in our internal control over financial reporting during the quarter covered by this report that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II – OTHER INFORMATION

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Purchases of Equity Securities by the Issuer and Affiliated Purchasers

We repurchase shares of Kimberly-Clark common stock from time to time pursuant to publicly announced share repurchase programs. All our share repurchases during the third quarter of 2012 were made through a broker in the open market.

The following table contains information for shares repurchased during the third quarter of 2012. None of the shares in this table were repurchased directly from any of our officers or directors.

Period (2012)	Total Number of Shares Purchased ^(a)	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares That May Yet Be Purchased Under the Plans or Programs
July 1 to 31	843,000	\$ 85.18	9,547,411	40,452,589
August 1 to 31	1,622,000	83.84	11,169,411	38,830,589
September 1 to 30	1,337,000	83.90	12,506,411	37,493,589
Total	3,802,000			

^(a) Share repurchases were made pursuant to a share repurchase program authorized by our Board of Directors on January 21, 2011. This program allows for the repurchase of 50 million shares in an amount not to exceed \$5 billion.

CERTIFICATIONS

I, Thomas J. Falk, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Kimberly-Clark Corporation (the “registrant”);
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant’s other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant’s disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant’s internal control over financial reporting that occurred during the registrant’s most recent fiscal quarter (the registrant’s fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant’s internal control over financial reporting; and
5. The registrant’s other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant’s auditors and the audit committee of the registrant’s board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant’s ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant’s internal control over financial reporting.
